

SDF

```
graph TD; SDF[SDF] --> ppm[ppm]; SDF --> xml[xml]; SDF --> dat[dat];
```

A hierarchical diagram with 'SDF' at the top level. A vertical line descends from 'SDF' and connects to a horizontal line. From this horizontal line, three vertical lines descend, each ending in a downward-pointing arrowhead. These arrows point to three separate boxes at the bottom level, labeled 'ppm', 'xml', and 'dat' from left to right.
